<b>If pregnant or breast-feeding,</b> ask a health professional before use. It is especially important not to use naproxen sodium at 20 weeks or later in pregnancy unless definitely directed to do so by a doctor because it may cause problems in the unborn child or complications during delivery. <b>Keep out of reach of children.</b> In case of overdose, get medical help or contact a Poison Control Center right away.			
Directions • do not take more th • the smallest effecti • drink a full glass of w	ve dose should be used		
Adults and children 12 years and older	<ul> <li>take 1 tablet every 8 to 12 hours while symptoms last</li> <li>for the first dose you may take 2 tablets within the first hour</li> <li>do not exceed 2 tablets in any 8- to 12-hour period</li> <li>do not exceed 3 tablets in a 24-hour period</li> </ul>		
Children under 12 years	ask a doctor
